

Year 1 Yellow Spring 1: Can Party Food Be Healthy?

Sticky Knowledge

The blue whale can produce the loudest sound of any animal.

Horses and cows sleep while standing up.

Giant Arctic jellyfish have tentacles that can reach over 36 metres in length.

Tigers can grow up to a length of 3 metres and weigh up to 300 kilograms when fully developed.

There are about 400 million+ dogs in the entire world. The average life of a dog depending on the breed can vary from 10 to 14 years.

Dolphins use whistling, clicking and other sounds to communicate with each other.

Camels can survive up to six months without water or food due to the fatty tissues stored in their humps.

The cheetah is the fastest animal to roam the earth with top speeds of 113 km per hour.

In the UK we have four seasons: spring, summer, autumn and winter. Summer is the hottest season and winter the coldest

Key Text

Topic Vocabulary

fish

A fish is a scaly skinned creature with a spine that swims in water and breathes using gills.

amphibians

All amphibians begin their life in water with gills and tails. Examples are frogs and newts.

Reptiles

Are animals that are cold-blooded. Most lay eggs and their skin is covered with hard, dry scales

Birds

Birds have feathers and wings. They lay eggs and are warm-blooded animals.

mammals

Mammals are also warm blooded animals. They breath air and have a backbone.

carnivore

A carnivore is a meat-eating animal that gets its food from killing other animals.

herbivore

A herbivore does not eat food and they eat plants.

omnivore

An omnivore eats plants and meat.

vegetable

A vegetable is a plant or part of a plant which is used as food, for example cabbage or potato.

fruit

Scientists think of fruit as a part of a plant that contains seeds.
