

## Year 2 Green Spring 1: Who Could Live In A House Like This?

### Sticky Knowledge

Wood is used to make buildings and furniture and for making fires and heating.

Most of the paper or cardboard we use came from trees.

Glass is a hard material that can be made in many shapes.

Glass is often used to make windows and bottles.

Petrol is used to make plastic and it invented just over a 100 years ago.

Glass is usually transparent, which means you can see through it, but can also come in different colours.

Many churches have special coloured glass often used to make religious pictures.

Plastics are used to make many of the things we use in everyday life. They are used for toys, bicycle helmets, mobile phones, window frames and many other items use plastic.

### Key Text
