

# Year 1 Yellow Spring 1: Can Party Food Be Healthy?

School Value: Empathy – We respect each other’s feelings and show kindness to each other

Topic Sticky Knowledge	
Science	Most amphibians and reptiles have four legs (apart from snakes), large eyes and gaping mouths. However, amphibians are able to breathe in water and on land.
	Amphibians, such as frogs, toads and newts, have a delicate soft skin, while reptiles, such as iguanas, crocodiles and alligators, have scaly skin that gives their bodies a protective armour.
	Most fish are ‘torpedo’ shaped with eyes at either side of their heads. They feed while swimming through the water.
	Humans have five senses – taste, hearing, smell, sight and touch – that they use to help them to find out about the world around them.
	Four of the senses are associated with particular parts of the body: taste – tongue and mouth; hearing – ears; smell – nose; sight – eyes, while the sense of touch is located all over the body.
Design & Technology	A food source is the place where food comes from. Food comes from plants and animals.
	Eggs come from chickens, fruit and vegetables come from all different plants, milk, butter and cheese comes from cows and meat comes from animals.
	Seasonal food is something that is ready to eat during a particular season. For example, strawberries are a summer fruit.
Art	The primary colours are red, yellow and blue. When we mix 2 primary colours, we get secondary colours. These are purple, orange and green.
	Printmaking is making art by printing pictures, normally on paper. The advantage of printmaking is that lots of the same picture can be printed. This is called a print. Each print is not a copy, but an original.

Topic Vocabulary		
Science	Amphibians	All amphibians begin their life in water with gills and tails. Examples are frogs and newts.
	Reptiles	Animals that are cold-blooded. Most lay eggs and their skin is covered with hard, dry scales.
	Mammals	Mammals are also warm-blooded animals. They breathe air and have a backbone.
	Birds	Birds have feathers and wings. They lay eggs and are warm-blooded animals.
	Fish	A fish is a scaly skinned creature with a spine that swims in water and breathes using gills.
	Omnivore	An omnivore eats plants and meat.
	Carnivore	A carnivore is a meat-eating animal that gets its food from killing other animals.
	Herbivore	A herbivore does not eat any meat, they eat plants.
Design & Technology	Ingredients	Any of the foods that are used to make a dish.
	Evaluating	When you decide at the end if something worked. In this topic, it will be if it tastes good!
Art	Texture	When a piece of art is not smooth and it feels rough or bumpy when you touch it. Sometimes art creates this feeling when we look at it.
	Pattern	A design in which lines or shapes are repeated to create a decoration.

# Year 1 Yellow Spring 1: Can Party Food Be Healthy?

School Value: Empathy – We respect each other’s feelings and show kindness to each other

Stand-Alone Sticky Knowledge	
RE	A long time ago King Antiochus banned Jews from worshipping God. He ordered them to worship him. But God had given the Jews the 10 commandments (rules) and he had told them not to worship any other Gods.
	A small group of Jews called the Maccabees fought against the King’s army and won the war.
	The temple had been destroyed so they cleaned and repaired it. They lit a lamp as a symbol to show God was present in the temple. The oil could only last 1 day, but the lamp stayed lit for 8 days, this was a sign that God was with the Jewish people. Now Jews light a candle for each day of Hanukkah.
	During Chanukah celebrations adults and children play a special game called ‘Dreidel’. It’s a game using a spinning top and coins.
	Chanukah is an annual week-long celebration and one of the biggest festivals of the year for Jewish people.
	In this unit you will listen to 6 different music styles! These are: Blues, Baroque, Latin, Irish Folk and Funk.
Computing	Creating even a simple snack involves breaking a big task down into smaller parts; in computing, this is called decomposition.
	The method in a recipe is a sequence of instructions – an algorithm in computer science.
	Many recipes are quite similar to one another, e.g. the recipe for a peanut butter sandwich and a jam sandwich; in computer science, these patterns are recognised and used.
	Creating a good video needs good technical skill, like keeping the camera steady, but also creativity.

Stand-Alone Vocabulary		
Computing	Algorithm	A sequence precise instructions or steps (sometimes a set of rules) to achieve an objective
	Decompose	Breaking a problem down into smaller parts
	Storyboard	A visual representation of the key scenes or frames in a video; one way of recording an algorithm visually.
	Frame	A single, still image from a video.
	Audio	Sound – this could be speaking, music or sound effects.
	RE	Chanukah
Chanukiah		Nine-branched candle stick used at Chanukah.
Dreidel		A four-sided spinning top, played with during the Jewish holiday of Chanukah.
Synagogue		A Jewish place of worship used for public prayer, study or meeting.
Music	Improvise	To make up a tune and play it on the spot. It might not be able to be re-created.
	Melody	Another name for a tune
